JAPANESE JOURNAL OF PARASITOLOGY

Vol. 33 1984

Contents

No. 4 (August 1984)

Research Note

No. 5 (October 1984)

No. 6 (December 1984)

EDITORIAL NOTICE

The Japanese Journal of Parasitology, published bimonthly, is both the official organ of the Japanese Society of Parasitology, and a medium for the publication of research and review article in the field of human and animal parasitology. Short reports of new experimental results, new technics, new hypotheses, etc. will be published out of turn as short communications. They should not be longer than 2 printed pages. Only members may publish in the Journal. Manuscripts, which must be written in Japanese or English, should be sent to the Editor ; Dr. A. Kobayashi, Department of Parasitology, Jikei University School of Medicine, 3–25–8 Nishishinbashi, Minato-ku, Tokyo 105, Japan. An original and one copy should be submitted. They must be type-written in double spacing throughout and in finished form. They will be reviewed by appropriate experts, and authors will be noticed when their papers have been accepted.

The authors will be requested to pay a charge of ¥2,000 for the first 3 pages. Cost of additional pages and all plates will be charged to the author. Two or more articles can be submitted by the same author in the same issue only with the financial cooperation of the author. Fifty or more offprints may be obtained at the author's expenses. Authors will be charged for excessive alteration in gally proof, other than printer's errors.

Manuscripts should include the title of the paper, author, institution, an adequate postal address, etc. Introduction, materials and methods, results, discussion, summary, acknowlegements, and references should follow. A list of key words (not to exceed 6 words) should be given on the top of the first page. Grant acknowledgements may appear at the beginning of the text. Binominal Latin names of organisms should be underlined in the typescript. The metric units and technical terms should be expressed as follows : centimeter-cm, degrees Celsius-°C, gram-g, kilogram-kg, 50% lethal dose-LD_{50}, liter-l, microgram-μg, nanogram-ng, milligram-mg, milliliter-ml, microcurie-μCi, millicurie-mCi, micrometer-μm, nanometer-nm, molar-M, normal-N, optical density-OD, per cent-%, revolutions per minute-rpm, standard deviation-SD, standard error-SE.

Citations of references in the text should be given in the following form : Yamada (1964), Yamada and Sato (1965) or (Yamada and Sato, 1965). Where there are more than two authors the citation should be in the form (Yamada *et al.* 1966). Where more than one paper by the same author(s) have been published in the same year they should be cited as Yamada (1960a), Yamada (1960b), etc.

Graphs, photographs and tables should appear on a separate sheet and should be referred to in the text as Fig. 1, Table 1 etc. The author should indicate on the margins of the manuscript his preference as to the approximate placement of the tables and figures in the text.

The references as the end of paper should be arranged in alphabetical order according to the name of the first author, and arranged in the following way : Weinbach, E. C. and Nolan, M. O. (1956) : The effect of pentachlorophenol on the metabolism of the snail *Biomphalaria glabrata*. Exp. Parasitol., 5, 276–284. References to books should follow these styles : Faust, E. C. (1949) : Human Helminthology, 3rd ed. Lea & Febiger, Philadelphia, 744 pp. : Yokogawa, M. (1969) : Paragonimus and paragonimiasis. In Advances in Parasitology, Vol. 7, ed. by Ben Dawes, Academic Press, London and New York, 375–387.

Persons interested in membership in the Japanese Society of Parasitology may obtain application blanks from Dr. K. Asami, Department of Parasitology, School of Medicine, Keio University, 35 Shinanomachi, Shinjuku-ku, Tokyo 160, Japan. A year's subscription to the Journal is included in the annual dues (¥6,000).
